

STRANGLE THE ROAD

Strangle the road with performance and knock 'em dead with good looks. Designed for Cruisers, Touring Bikes, and Customs the Avon Cobra radial from England has everything a biker needs, like a snakeskin sidewall pattern and VBD (Variable Belt Density) construction for precise handling and long life. If your application demands a bias ply tire then check out Cobra's bad brother, the "Venom" tire which is available in reinforced sizes for heavy loads and whitewall sizes for that unique custom look. Check out avonmoto.com for details.
